

“SAP Business One has helped us to manage our expenditure and revenue efficiently and effectively thanks to the well-designed functional modules available for financial reporting and analysis.”

Jean-Luc Uzice, IT Manager, Eden Bleu Hotel

FIRST-CLASS BUSINESS MANAGEMENT WITH SAP BUSINESS ONE

Luxury hotel Eden Bleu, teamed with G3G to help implement SAP Business One to better manage their expenditures and revenue. With more efficient and effective methods in place, accurate financial reports and analysis can be made in real time.

OBJECTIVES

- Eden Bleu Hotel needed a more effective way to facilitate and coordinate monthly and yearly reporting.
- Advanced business analytics was a challenge to make accurate and innovate business decisions.
- Inventory and asset management needed improvement so Eden Bleu Hotel had the right stock at hand to replenish on a daily basis.
- New software was required that would offer flexible and efficient approval procedures to ensure customer experience was never impacted.

WHY SAP AND G3G

- SAP Business One provides all the tools needed to manage the hotel's revenue and expenditures in a more constructive manner.
- G3G specialises in business management covering finance, inventory, assets and operation.

BENEFITS

- Since implementation, Eden Bleu Hotel now has analytics that help make fast and accurate decisions.
- Reporting is more advanced, giving management better insight into how to manage and grow such a large establishment.
- Customer satisfaction levels and support experience has increased.
- Inventory and asset management has improved, from sourcing high quality supplies to decreasing expenses incurred on wastage.
